

ADJUSTABLE FACE MASK

Reusable hygienic face mask for adults and children, complying with the material, design and manufacturing requirements of the UNE 2020:0065 specification.

Designed to cover the nose, mouth and chin during the practice of skydiving. Made with reusable filtering material that allows breathing and adjustable harness for an improved fit and stability.

DETAILS

22.5 cm x 16 cm double layer, with an elastic 110 cm x 0.6 cm adjustable harness.

With an interior nasal wire piece for better fit to the face.

Made in Spain.

COMPOSITION

Interior layer:

- 100% Cotton
- Density: 200 g/m²

Exterior layer:

- 100 % Polyester
- Density: 129 g/m²

INTENDED PURPOSE

Intended for use in asymptomatic people, to reduce the risk of contagion in the case of the impossibility of maintaining the recommended social distance.

USAGE INSTRUCTIONS

It is recommended that the mask is placed with clean hands and that the following steps are followed:

- Identify the correct placement of the mask: with the graphic facing out and the cord with the adjuster underneath.
- Position the bottom cord around the neck.
- Position the mask on your face, at nose level.
- Pull the top drawstring back to the top of the back of the head.
- Adjust the lace using the adjuster.

CARE INSTRUCTIONS

Wash at 40° C with detergent and air dry.
